DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21, 27 and 33, drawn to an isolated nucleic acid fragment for suppression of lysine ketoglutarate reductase/saccharopine dehydrogenase activity, classified in class 536, subclass 23.1.
 - II. Claims 22-26, 28-32 and 34-38, drawn to a chimeric gene comprising an isolated nucleic acid fragment for suppression of lysine ketoglutarate reductase/saccharopine dehydrogenase activity operably linked to a regulatory sequence for expression in a plant, and to the method of transforming a plant and plants and seeds transformed with said chimeric gene, classified in class 800, subclass 298.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the product of Group I can be used in a different process, such as a probe for hybridization.

Art Unit: 1638

1. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the requirement for different searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
